

Corey Plover: Curriculum Vitae

Academic

BCom / BSci, University of Melbourne, 2001
BCom (Hons), University of Melbourne, 2002
Fellow of Institute of Actuaries of Australia, 2009

Current responsibilities

Corey is a director of Cumpston Sarjeant, a consulting actuarial firm specialising in economic loss assessments and numerical valuation services, and has worked in these areas since his commencement following attainment of an Honours degree in Actuarial Studies in 2002. He specialises in the history and implementation of court prescribed calculations, particularly fund management calculations.

Relevant professional experience

Legal economic loss calculations - Involvement in over 1,000 legal calculation matters since 2002 spanning various components of economic loss including earnings and superannuation loss assessments, expenditure valuations, dependency claims and life expectancy calculations

Fund management valuations - Design of fund management valuation models and comparison tables for public and private managers, calculation of fund management uplifts for NSW, Victoria, Queensland, Western Australia and Tasmania matters since 2005.

Simulations and numerical modelling - Design of internal and client-based stochastic models and optimisers covering areas such as financial projections, medical impairment evaluation, asset-liability models and demographic analysis. Automated data capture and parsing for quantitative data analysis tasks including large-scale audits and quality assessment services.
