

David Heath: Curriculum Vitae

Academic

Honours Degree of Bachelor of Economics, Monash University, 1990
Grad Dip Applied Finance, Securities Institute of Australia (now FINSIA) 1991
Certified Practising Accountant (CPA) Programme, 1991
Fellow of Institute of Actuaries of Australia, 1997
Graduate Certificate in Business Forensics, University of Melbourne, 2012

Professional

Over twenty years' experience in actuarial consulting, including seven years as leader of General Insurance & Accident Compensation Practice in Melbourne for PwC. Advice to clients included estimation of outstanding claims provisions, premium rating, reinsurance advice, agent remuneration, performance measurement & capital management. The range of clients included insurance companies, self-insuring corporate clients & accident compensation schemes.

Since 2007, at Cumpston Sarjeant, continued experience of General Insurance actuarial consulting, as well as experience in the preparation of expert witness reports in the areas of economic loss, superannuation and commercial disputes.

Extensive experience in actuarial and finance education, both at University level and post-graduate level. Lecturer and Honorary Senior Fellow at the University of Melbourne.

David has had wide experience in actuarial matters, specialising in accident compensation. He is also a qualified accountant.
